## DEPILATORY PROTOCOLS

### INTRODUCTION

All the depilatory chemical formulas and elaborated by LABORATORIOS DIET ESTHETIC S.A., meet the most rigorous health regulations set by the EC, with regards to the use of Calcium and Thioglycolic Acid.

We can divide the products into categories, according to which segment is selected by the client:

- Mass Market
- Mass market with added value
- Selective with added value

At the same time we can make another division, according to which the target group is selected by the client:

- Men
- Men added value
- Women
- Women added value
- Unisex
- Unisex added value

We can also make another division of the form of the product

Chosen by the client:

- Creams
- Emulsions
- Emulsions in spray
- Gels

The added value of any product will depend exclusively on the possibilities of the client to increase the cost price, to satisfy the demands of their clients, the addition of active ingredients with diverse functions, such as:

- Suitable for sensitive skin
- Addition of an inhibitor effect;
- Addition of wax in its composition, etc.

The formulas vary substantially from one to the other in quality, but there is a common denominator of the INGREDIENTS in the different composition

## **HAIR REMOVER CREAM MASS MARKET BASIC FORMULA**

### **INGREDIENTS:**

Aqua (Water)  
Cetearyl Alcohol  
Paraffinum Liquidum (Mineral Oil)  
Ceteareth-25  
Glyceryl Stearate  
Dimethicone  
Cera Microcristallina (Microcrystalline Wax) or Paraffim  
Parfum (Fragrance)  
B.H.T.  
Tetrasodium EDTA

### **HAIR REMOVER ACTIVE PRINCIPLES, two possibilities:**

#### **With Calcium**

Calcium Thioglycolate  
Calcium Hidroxide

#### **With acid**

Potassium Hydroxide  
Thioglycolic Acid

The MASS MARKET quality with added value is about adding active principles, in sufficient quantities, to obtain a specific result, for example, to reduce the degree of irritation of the skin.

## **HAIR REMOVER GEL MASS MARKET BASIC FORMULA**

### **INGREDIENTS:**

Aqua (Water)  
Potassium Hydroxide  
Thioglycolic Acid  
Sodium Carboxymethylcellulose  
Peg 9 Lauryl Glycol Ether  
Urea  
Alcohol denat.  
Propylene Glycol  
Parfum (Fragrance)  
B.H.T.  
PEG 40 Hydrogenated Castor Oil  
Eucalyptus Globulus (Oil)  
Tetrasodium EDTA  
Titanium Dioxide

NOTE: The gel cannot be formulated with Calcium Thioglycolate. A distinguishing characteristic of our gel is that it is opaque as opposed to the gels of our competitors, which permits the consumer to see where it is being applied.

## **HAIR REMOVER CREAM SELECTIVE MARKET with added value, sensitive skins**

### **INGREDIENTS:**

Aqua (Water)  
Aloe Barbadensis (Aloe Vera Gel)  
Calcium Thioglycolate  
Cetearyl Alcohol  
Glycerin  
Steareth-2  
Cetyl Palmitate  
C12-C15 Alkyl Benzoato  
Octyl Palmitate  
Caprylic-Capric Triglyceride  
Calcium Hidroxide  
Urea  
Steareth-21  
Dimethicone  
Glyceryl Stearate  
Avena Sativa (Oat Extract), Propylene Glycol,  
Parfum (Fragrance)  
B.H.T.  
CI 61585

Glycereth-26  
Allantoin  
Squalane, Paraffin,  
Cyclomethicone, Dimethiconol  
Tetrasodium EDTA

**NOTE: WITH OR WITHOUT SPRAY**

**HAIR REMOVER CREAM or GEL**

Mass Market quality

For men

For women

Excellent relation quality/price

**SENSITIVE SKINS HAIR REMOVER CREAM or GEL**

- Unisex for men & women
- For corporal & facial use
- We can add HAIR GROWTH INHIBITOR EFFECT.
- We can add active principles to increase the added values

**OTHER PRESENTATIONS**

- Mousse or spray

**Hair removal characteristics**

- We have eliminated the characteristic unpleasant smell of the normal hair removers.
- All the hair removers can be filled in opaque or transparent standard tubes
- The hair remover effect starts from 3 minutes after the first application
- The hair removal gel can be formulated to be transparent or opaque

**IMPORTANT NOTICE**

- We can add in all the products principle actives, specific colour and smell to distinguish the product and increase the added value
- All the products could be supplied in bulk.

**OTHER PRODUCTS**

**AFTER HAIR REMOVER**

**UNDERHAIR** is the solution to prevent the growth of hairs under the skin.

**DEODORANT** with inhibitor effect

**AFTER HAIR REMOVER OILS**

**AFTER HAIR REMOVER EMULSION or GEL** (moisturizing, calming, etc.)

**HAIR GROWTH INHIBITOR**

**The different presentations are the following:**

- Ampoules for only one use
- Emulsion
- Spray
- Mouse

- Gel

### **IMPORTANT NOTICE**

- We can add in all the products principle actives, specific colour and smell to distinguish the product and increase the added value
- All the products could be supplied in bulk.

### **HAIR REMOVING STRIPS**

We are leaders in the manufacture of hair-removing strips.

Our two basic types come with all the guarantees of efficacy for all kinds of water or oil based waxes.

Our smooth strips of unwoven material have a special finish which stops the wax coming through, this allows them to be re-used many more times.

The extra smooth strips of unwoven material are intended for smooth hair removal.

The special weave of the fibres make them practically unbreakable at the same time minimizing the pulling-off effect.

Presentations for facial and corporal use, for both men and women.

We offer a wide range of colours, fragrances, varied materials and presentations, so as to be able to adapt to the wishes, budget and needs of our most demanding clients.
